LU08.A03 - UPATE

Requirements

- Work type: Individual
- Timeframe: 15 Minutes
- Means of aid:
    - Only teaching materials, no websearch, no use of ai.
- Expected Result: employee's data are updated according to the requirements below

Assignments

In assignment A2 you imported 30 lines of date to the table 'employees'. In this assignment your task is to perform some DML update commands.

A: Basic Update

The employee 'Laura Clark' got divorced and therefore took her maiden name. Update her data record in the table.

B: Update with OR

As a company policy the attribute 'sex' is not required anymore and is to be emptied. Formulate the corresponding SQL statement that deletes all content from that column.

C: Update with AND

The performance of our company's IT department was outstanding last year, resulting in a pay rise to 70'000 for all IT employees earning less than 70,000. Create a DML update command that covers the requirements.
