

# LU03.S01 - Hello World in W3School-Playground

## Assignments

1. Open the playground with the link above. You will be presented with a split window on which on the right hand side you will see the coding area, and on the right hand side the result area.
2. Currently there is a *Hello World* message with a lightgreen background.
3. Change the already existing text *Hello Galaxy* with a lightblue background
4. Execute the change by pushing the *RUN-Button*
5. Check the result

Your result is supposed to look like the following image:

The screenshot shows a browser-based code editor and preview interface. The top bar includes icons for file operations and a green 'Run' button. The main area is split into two sections: a code editor on the left and a preview area on the right.

**Code Editor (Left):**

```
<!DOCTYPE html>
<html>
<head>
  <title>My first Vue page</title>
  <style>
    #app {
      display: inline-block;
      padding: 10px;
      font-size: x-large;
      background-color: lightBlue;
    }
  </style>
</head>
<body>

<h1>Vue Example</h1>

<p>The message is taken from 'data' inside the Vue instance by writing {{ message }} inside the div with id="app".</p>

<div id="app">
  {{ message }}
</div>

<script
src="https://unpkg.com/vue@3/dist/vue.global.js">
</script>
|
<script>
  const app = Vue.createApp({
    data() {
      return {
        message: "Hello Galaxy!"
      }
    }
  })
  app.mount('#app')
</script>
</body>
</html>
```

**Preview Area (Right):**

The preview area has a title 'Vue Example'. Below it, a note states: 'The message is taken from 'data' inside the Vue instance by writing {{ message }} inside the div with id="app".' The result is displayed in a light blue box with the text 'Hello Galaxy!'
