

LU03.S01 - Hello World in W3School-Playground

Assignments

1. Open the playground with the link above. You will be presented with a split window on which on the right hand side you will see the coding area, and on the right hand side the result area.
2. Currently there is a *Hello World* message with a lightgreen background.
3. Change the already existing text *Hello Galaxy* with a lightblue background
4. Execute the change by pushing the *RUN-Button*
5. Check the result

Your result is supposed to look like the following image:

```
<!DOCTYPE html>
<html>
<head>
<title>My first Vue page</title>
<style>
#app {
  display: inline-block;
  padding: 10px;
  font-size: x-large;
  background-color: red;
}
</style>
</head>
<body>

<h1>Vue Example</h1>
<p>The message is taken from 'data' inside the Vue instance by writing {{ message }} inside the div with id="app".</p>
<div id="app">
  {{ message }}<br>
  {{ message2 }}
</div>

<script src="https://unpkg.com/vue@3/dist/vue.global.js"></script>
<script>
const app = new Vue({
  data() {
    return {
      message: "Hello World!",
      message2: "Hello Galaxy!!!"
    }
  }
})
app.mount('#app')
</script>
</body>
</html>
```

Vue Example
The message is taken from 'data' inside the Vue instance by writing {{ message }} inside the div with id="app".

Result Size: 1009 x 772 Get your own website

Hello World!
Hello Galaxy!!!

SFC = Single File Component
Alle 3 Elemente (HTML, CSS und JS)
sind in einem File vereint.
