Assignment

You will find at the W3School webseite a small script in which some photographs are being displayed. In this script we would like to make some changes as follows:

1. If not already done, create a new directory *media* and save at least three photos of your choice in it.
2. Adjust the code to display this three photos. That means you need some new image-tags for this photos.
3. Create withing the style area a second CSS class #app2 with new values of your choice for the photo frame.
4. Activate the css amendments by adjusting the template-code (div-element).
5. Execute your script and check the correctness.
6. Save your result either on your pc or in the W3Schools workspace (requires a W3Schoo profile).
