# LU05.A07 - v-if (simple)

## Prerequisites

- Work type: Individual
- Means of aid: only teaching materials, no websearch, no use of ai.
- Timeframe: 5 Minutes
- Expected result: Vue script that displays HTML elements based on input values.

## Learning objectives

1. Explaining the The directive *v-if* in your own word.
2. Manipulating simple DOM elements based on the directive *v-if*

## Source

- Code-example: v-if directive src

## Assignment

In the script area of the W3-School example (link above) you will find a variable *typewritersInStock* with the value *true*. In the html area of the same script there will be decided, what is supposed to happen in which case. In the *true-case* there are typewriters on stock, and in the else-case (v-else) they are not.

1. Change the value of the variable *onStock* to *false* and run the script.
2. Note your realisations as a html-comment!
3. Save your script acoordingly, whether in your W3School workspace or on you local computer in your code-editor Webstorm.
