

# LU05.A09 - v-else-if and v-else

## Prerequisites

- Work type: Individual
- Means of aid: only teaching materials, no websearch, no use of ai.
- Timeframe: 15 Minutes
- Expected result: A Vue script that displays HTML elements based on input values.

## Learning objectives

1. Explaining the The directive *v-if* in your own word.
2. Being able to apply v-if in combination wit e-else-if and v-else

## Source

- [Code-example: v-if directive src](#)

## Assignment

In this assignment we are going to use *v-if* in compination with both *v-else-if* and *v-else-if*. This three selection elements of VUE allow us to check up to any number of values, e.g. *in stock*, *very few left* oder *not on stock*.

1. Change the content of the variable *typewriter* to a value between 0 und 5. Run afterwards the strict afterwards.
2. Introduce an additional paragraph with *plenty* which contains a values less than 10
3. Note your realisations as a html-comment.
4. Save your script acoordingly, whether in your W3School workspace or on you local computer in your code-editor Webstorm
