Assignment

This assignment about fading-in and fading-out of images by using the vue-directive v-show in the concerning HTML-Tag. Similar to the previous assignment this is realized by changing the value of the v-show-attribute between *TRUE* and *FALSE*.

1. Click the link above to the code-exambpe to get to the W3School-TryOut area.
2. Save the code with a suitable name, such as LU05.S13.html.
3. Have it run by clicking the *run-button*.
4. Search in the internet for images of bulbs and save it in your workspace in the director *media*
5. Create a own image-tag.
6. Use the v-show directive for the visability of the bulb by steering it with the *v-show* by changing the value of *showDiv* between *true* and *false*.
7. Note the result as a html-comment und beobachten Sie die Reaktion der Applikation.
8. Save your result, you may need it as a exam-preparation.

Solution
