

LU05.S04 - v-bind with css-class

Codesolution

Hints

- Download the file and copy the content into the code area of the W3School on the left hand side of the coding window.
- You can execute the code by pressing the *run* button
- The result will be presented in the right hand side of the window.

Assignment

1. If not already done, create a new directory *media* and save at least three photos of your choice in it.
2. Adjust the code to display this three photos. That means you need some new image-tags for this photos.
3. Create within the style area a second CSS class *#app2* with new values of your choice for the photo frame.
4. Activate the css amendments by adjusting the template-code (div-element).
5. Execute your script and check the correctness.
6. Save your result either on your pc or in the W3Schools workspace (requires a W3School profile).
