

# LU05.S08 - v-if

## Sourcecode of the solution

- Sourcecode of the solution

## Assignment

In the script area of the W3-School example (link above) you will find a variable *typewritersInStock* with the value *true*. In the html area of the same script there will be decided, what is supposed to happen in which case. In the *true*-case there are typewriters on stock, and in the else-case (v-else) they are not.

1. Change the value of the variable *typewritersInStock* to *false* and run the script.
2. Note your realisations as a html-comment?
3. Save your script accordingly, whether in your W3School workspace or on you local computer in your code-editor Webstorm.
