

# LU07.A02 - Events - Moose-count

## Prerequisites

- Work type: Individual
- Means of aid: only teaching materials, no websearch, no use of ai.
- Timeframe: 25 Minutes
- Expected result: A Vue-Script, which uses methods to display messages on the screen and increments and decrements a counter.

## Learning Objectives

1. Implementing VUE methods by using arguments.
2. Increment and decrement a counter within a method.
3. Writing own methods and making use of them.

## Source

- [Code-example: Methods in VUE](#)

## Assignment A - 2'

- A01: Test the code example above which was provided to you. Describe the behaviour of the script using HTML comments.
- A02: Make sure that everything is working correctly: The moose-count uses the method **addMoose** by processing the number we need to count up or down
  1. increments by 1
  2. decrements by -1
  3. increments by +5

A03: Make sure that you have the title `<h1>` and have correctly named the file: **lu07.s02.html**

## Assignment B - 5'

B01: Currently we can increment by +1 and +5, and decrement by -1.  
B02: Similar to `**addMoose**` add method `**removeMoose**` which manages the decrement operations and use it.  
B03: Test your results and save it.  
B04: Add more buttons which can

- increment by +10
- decrement by -10
- decrement by -5

B05: The aim is to have 3 increment-buttons (+1, +5, +10) and 3 decrement-buttons (-1, -5, -10)

## Assignment C: Catching numbers below zero (0) - 7'

C01: At 0 we must stop counting, when the count reaches the zero.  
C02: Add the case below zero to your `removeMoose-method` by checking the `count` with a `if-statement`  
C03: Check the result: It must stop at zero when the button `removeMoose` when the count reaches 0.

## Solution

[Lösung](#)

## Vocabulary

English	German
corresponding number of times	entsprechend oft
to increment	erhöhen, hochzählen
to decrement	vermindern, herunterzählen
thus	somit, dadurch
