LU07.A02 - Events - Moose-count

Prerequisites

- Work type: Individual
- Means of aid: only teaching materials, no websearch, no use of ai.
- Timeframe: 25 Minutes
- Expected result: A Vue-Script, which uses methods to display messages on the screen and increments and decrements a counter.

Learning Objectves

- 1. Implementing VUE methods by using arguments.
- 2. Increment and decrement a counter within a method.
- 3. Writing own methods and making use of them.

Code-example: Methods in VUE

Assignment A - 2'

- A01: Test the code example above which was provided to you. Describe the behaviour of the script using HTML comments.
- A02: Make sure that everthing is working correctly: The moose-count uses the method addMoose by processing the number we need to count up or down
 - 1. increments by 1
 - 2. decrements by -1
 - 3. increments by +5

A03: Make sure that you have the title <h1> and have correctly named the file: **lu07.s02.html**

Assignment B - 5'

```
B01: Currently we can increment by +1 and +5, and decrement by -1.
B02: Similar to **addMoose** add method **removeMoose** which manges the
decrement operations and use it.
```

B03: Test your results and save it.

B04: Add more buttons wich can

- increment by +10
- decrement by -10
- decrement by -5

B05: The aim is to have 3 increment-buttons (+1, +5, +10) and 3 decrementbuttons (-1, -5, -10)

Assignment C: Catching numbers belov zero (0) - 7'

C01: It 0 we must stop counting, when the count reches the zero.

CO2: Add the case below zero to your **removeMoose-method** by checking the **count** with a if-statement

CO3: Check the result: It must stop at zero when the button **removeMoose** when the count reaches 0.
