

# LU07.A02 - Events - TBD

## Assignment 1: Preparatory work

• ...

## Solution

The image shows a code editor with two panels. The top panel displays HTML code for a Vue.js application with six event handlers: `1-setText`, `2-resetText1`, `3-Increment1`, `4-Increment2`, `5-alltogether`, and `6-resetAll`. The bottom panel shows the JavaScript code for the `setText`, `resetText1`, `increment1`, and `increment2` methods. To the right of the code is a UI mockup with a heading "Click on the box below:" and six green buttons, each labeled with a number and a description of the action (e.g., "1-setText Hello World"). Red arrows connect the code snippets to their respective UI buttons.
