

LU07.S02 - Events - TBD

Assignment A

- A01: Test the code example above which was provided to you. Describe the behaviour of the script using HTML comments.
- A02: Make sure that everything is working correctly: The moose-count uses the method **addMoose** by processing the number we need to count up or down
 1. increments by 1
 2. decrements by -1
 3. increments by +5

A03: Make sure that you have the title `<h1>` and have correctly named the file: **lu07.s02.html**

Assignment B

- B01: Currently we can increment by +1 and +5, and decrement by -1.
- B02: Similar to **addMoose** add method **removeMoose** which manages the decrement operations and use it.
- B03: Test your results and save it.
- B04: Add more buttons which can
 1. increment by +10
 2. decrement by -10
 3. decrement by -5
- B05: The aim is to have 3 increment-buttons (+1, +5, +10) and 3 decrement-buttons (-1, -5, -10)

Assignment C

- C01: At 0 we must stop counting, when the count reaches the zero.
- C02: Add the case below zero to your **removeMoose-method** by checking the **count** with a if-statement
- C03: Check the result: It must stop at zero when the button **removeMoose** when the count reaches 0.

Solution

Source-code of the solution

```
<html lang="en"> Show component usages
<body>
<div id="app">
</div>
<script src="https://unpkg.com/vue@3/dist/vue.global.js"></script>
<script>
const app = Vue.createApp( rootComponent: {
  data() {
    return {
      count: 0,
      message: ""
    };
  },
  methods: {
    // Method to add moose
    addMoose(number) {
      this.count += number;
      this.message = "";
    },
    // Method to remove moose including
    // check of stop at 0
    removeMoose(number) {
      if (this.count - number >= 0) {
        this.count -= number;
        this.message = "";
      } else {
        this.message = "Sie dürfen nicht weniger als 0 Moose haben!";
      }
    }
  }
}
```

LU07.A02 - MooseCount, implemented with methods

Example: Passing Arguments with Methods
