

LU07.S03 - Events - Animal-count (arguments)

Assignment A - 3'

- A01: Test the code example above which was provided to you. Describe the behaviour of the script using HTML comments.
- A02: Check to basic function of the script. When clicking the tiger-image the a message which greets the tiger should appear in the green field below the image.
- A03: Make sure that you have the title `<h1>` and have correctly named the file: **lu07.s03.html**
- A04: Save it.

Assignment B: Extend the argument list - 10'

- B01: Kindly as we are, we not only want to greet the tiger, but also show a title to the image.
- B02: There must be a message commencef as well, „you look terrifying!!
- B03: Note: The signature of the method must therefore be extended by additional arguments: title and message.

Assignment C: Add more animals to greet - 7'

- C01: As we were able to greet the tiger properly, we are seeking new challanges. Add two more animals to be greeted with the corresponding title and message.

Solution

Source-code of the solution

Methods with several arguments

In this example we see that it is possible to send both the event object and a text as an argument with a method. To do this we must use the reserved name for event methods: 'Sevent'.

Click on the image of the animals above, go get a proper response:

...
Hello Lion! You look kingly indeed
