

LU07.S05 - Cascading Methods - TBD

Assignment 1: Preparatory work

• ...

Solution

The screenshot displays the source code for a mood measurement application. The HTML template includes a heading 'Choose Your Mood' and four buttons: 'Happy', 'Sad', 'Angry', and 'Desperate', each with a corresponding emoji and a click event listener 'myMethod' with a mood argument (1, 2, 3, or 4). The JavaScript code defines a Vue instance with a 'data' object containing a 'message' property set to 'Please select a mood.' and a 'myMethod' function that updates the message based on the selected mood: 1 for 'You chose happiness!', 2 for 'Feeling blue? Here's a hug', 3 for 'Take a deep breath.', and 4 for 'Eat chocolate icecream which makes you'.
