

LU03b - Basic Commands with Kubernetes (K8s)

Goals

1. I'm able to submit basic commands in K8s.
2. I understand the purpose of the commands.
3. I can suggest and implement at least one measure when an error occurs.

Basics

This [video](#) demonstrates basic commands in Kubernetes (K8s).

Exercises

1. Watch again the video cast.
2. Start your ec2 instance in AWS Academy based on the copied AMI.
3. Try the demonstrated commands in your instance.
4. Understand the purpose of the commands.
