LU02a - Distributed System

Objectives

1. I can count the `characteristics` of Distributed and Centralized System mentioned in this topic.
2. I can count the `components` of Distributed and Centralized System mentioned in this topic.
3. I can compare a Distributed and Centralized System by its `features` mentioned in this topic.

Basics

02-1.md: In this article, you will learn about

- the differences between Centralized and Distributed Systems,
- what characteristics, components and examples for each architecture exist.
