LU05c - Jenkins container pipeline with tests (Project)

Internal reference: learningunits/05-3.md

Goals

- 1. I can set up Jenkins with DinD.
- 2. I can set up pipeline stages in order to test Jenkins pipeline stepwise.
- 3. If there are any errors, I can analyze the error, suggest and test an initial workaround (troubleshooting).

Sample project

Extend container-pipeline with unit tests

Exercises

- 1. Setup Jenkins 04/02_Exercises/a03 according to the learning objectives (see course repository).
- 2. If there is an error, read the message carefully, think about a solution and implement it.
