

LU05c - Sample project with Jenkins container pipeline (2)

Internal reference: learningunits/05-3.md

Goals

1. I can set up Jenkins with DinD.
2. I can set up pipeline stages in order to test Jenkins pipeline stepwise.
3. If there are any errors, I can analyze the error, suggest and test an initial workaround (troubleshooting).

Sample project

[Extend container-pipeline with unit tests](#)

Exercises

1. Setup Jenkins 04/02_Exercises/a03 - according to the learning objectives (see course repository).
2. If there is an error, read the message carefully, think about a solution and implement it.
