LU07b - Applying Code coverage

Internal reference: learningunits/07-2.md

Goals

1. I can count out (aufzählen) the basic commands for generating `code coverage reports` with `jest`
2. If there are any errors, I can analyze the error, suggest and test an initial workaround (troubleshooting).

Basics

This article explains, how to set up `code coverage` with the node package `jest`. ^{Internal reference 06-2.md}

Exercises

1. Work on `07/02_Exercises/01 to 02` - according to the learning objectives (see course repository).
2. If there is an error, read the message carefully, think about a solution, and implement it.
