

# Lösung LU01.A08

```
def main():  
    # write your code below this line  
    print('I will tell you a story, but I need some information first.')
```

name = input('What is the main character called?\n')

job = input('What is their job?\n')

```
    print('Here is the story:')  
    print('Once upon a time there was ' + name + ', who was ' + job)  
    print('On the way to work, ' + name + ' reflected on life.')
```

print('Perhaps ' + name + ' will not be ' + job + ' forever.')

```
if __name__ == '__main__':  
    main()
```
