

LU01c - Required software & how to install them - Part 1

Before we get down to the practical work, we need to install various software. The following list contains the required software packages and the purpose of each package:

Software	Description	Download-Source
Webstorm	Editor Code editor in order to program the source code such for database tables and server	Webstorm
MySQL	Database, storage and management of data	MySQL
Postman	Simulation of the frontend within the terminal/commandline	Postman
XTerm	Simulation of the frontend instead of a browser	XTerm

Please note that only Webstorm and MySQL are required in the first half of the module. Postman and XTerm are required in the second half of the module and will be installed in due course.

Vocabulary

English	German	Download-Source
required	erforderlich	
various	verschiedene	
storage	Lagerung	
within	innerhalb	
require	benötigen	
in due course	zu gegebener Zeit
