# LU06.S01 - SQL-DDL: DB Management

Solutions

Task A

Make sure, that your MySQL database system is running and connect with you webstorm editor to your database with your DBA credentials (user: root, password: yourPW).
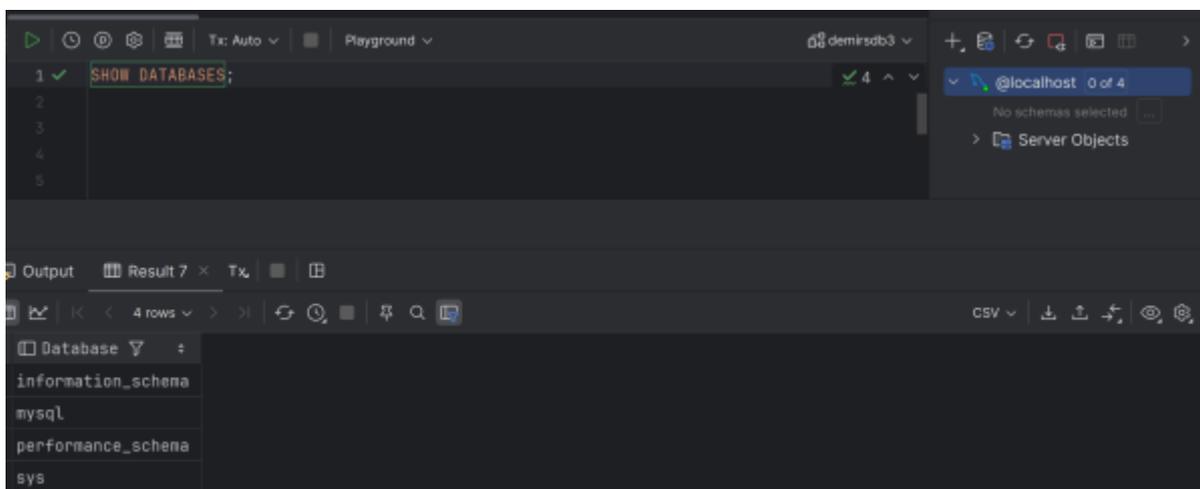

Windows

CTRL + Shift + ESC –> Dienste –> Filtering the resultset to MySQL

MacOS …

Task B

Display all instances which are currently running on our database.
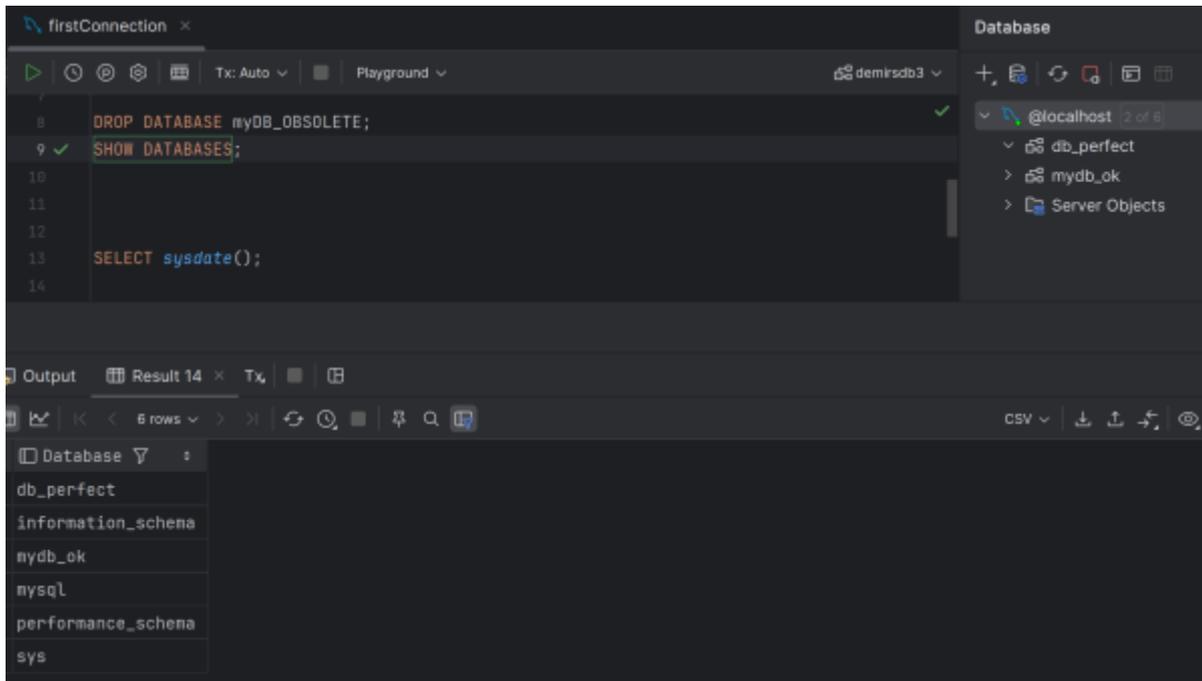

Task C

Create the database instances

- myDB_PERFECT
- myDB_OK
- myDB_OBSOLETE

and display your result.

Task D

Drop the instance „myDB_obsolete", as it obviously obsolete (no longer needed). Display the result.

Task E

Activate the instance „myDB_good" by using the USE command.

Task F

Display the system date by using the command „SELECT sysdate();"

Congratulations!! You have just received a first respond from your database „mydb_perfect".

Vocabulary

English	German
obsolete	überflüssig
credential	Berechtigungsnachweis
