

# LU07.A03 - UPATE

## Requirements

- Work type: Individual
- Timeframe: 15 Minutes
- Means of aid:
  - Only teaching materials, no websearch, no use of ai.
- Expected Result: employee's data are updated according to the requirements below

## Assignments

In assignment A2 you imported 30 lines of data to the table 'employees'. In this assignment your task is to perform some DML update commands.

### A: Basic Update

The employee 'Laura Clark' got divorced and therefore took her maiden name. Update her data record in the table.

### B: Update with OR

As a company policy the attribute 'sex' is not required anymore and is to be emptied. Formulate the corresponding SQL statement that deletes all content from that column.

### C: Update with AND

The performance of our company's IT department was outstanding last year, resulting in a pay rise to 70'000 for all IT employees earning less than 70,000. Create a DML update command that covers the requirements.
