# **LU07.A03 - UPATE**

### Requirements

Work type: IndividualTimeframe: 15 Minutes

• Means of aid:

o Only teaching materials, no websearch, no use of ai.

• Expected Result: employee's data are updated according to the requirements below

# **Assignments**

In assignment A2 you imported 30 lines of date to the table 'employees'. In this assignment your task is to perform some DML update commands.

#### A: Basic Update

The employee 'Laura Clark' got divorced and therefore took her maiden name. Update her data record in the table.

#### **B: Update with OR**

As a company policy the attribute 'sex' is not required anymore and is to be emptied. Formulate the corresponding SQL statement that deletes all content from that column.

#### C: Update with AND

The performance of our company's IT department was outstanding last year, resulting in a pay rise to 70'000 for all IT employees earning less than 70,000. Create a DML update command that covers the requirements.

## **Solution**

Lösung

## Vocabulary

English	German
