

# LU10.A03 - Building a basic web server with node

## Requirements

- Work type: Individual
- Timeframe: 30 Minutes
- Means of aid:
  - Only teaching materials, no websearch, no use of ai.
  - Webstorm Codeeditor
- Expected result:
  - A basic web server, that can send data to the browser

## Assignments

As we all know, a server provides data to users request. Let us build together a webserver, that can display an array of data on the browser. For that follow the instructions on the video tutorial.
